

Table of Contents

Chapter 1 Introduction	1
Chapter 2 Linear Counting	4
The Number Rods	5
The Sandpaper Numerals	10
The Number Rods and Numeral Cards	12
The Spindle Boxes	15
The Numerals And Counters	17
The Memory Game With Numerals and Counters	19
Linear counting	21
The Short Bead Stair	22
Number Rods - Teen Presentation	24
Snake Game: Search For Ten	27
Introduction To Teens: Quantity	30
Teen Boards: Numerals	32
Teen Boards: Quantity And Numerals	34
Introduction To Tens: Quantity	37
Ten Boards: Numerals	39
Ten Boards: Quantity and Numerals	41
One Hundred Chain and Labels	44
One Thousand Chain and Labels	47
One Hundred Chain and One Thousand Chain	50
One Hundred Board and Numerals	52
Squaring Chains: One Through Ten	54
Cubing Chains: One Through Ten	56
Cubing Chains Layout	58

Chapter 3 The Decimal System	60
The Decimal System: Introduction to the Decimal Categories	61
Introduction to the Decimal Categories: Numerals	65
The Decimal System: Association of Decimal Beads and Numerals	67
Formation of Numerals	70
Addition With Golden Beads and Numeral Cards	72
Regrouping With the Golden Beads for Addition and Multiplication	75
Addition With the Golden Beads: Regrouping for Dynamic Addition	77
Subtraction With the Golden Beads.	80
Regrouping With the Golden Beads for Subtraction and Division	82
Multiplication With the Golden Beads.	85
Division With the Golden Beads (One-Digit Division)	89
Division With the Golden Beads (Two-Digit Divisor “Decurian Division”)	92
Introduction to the Stamp Game	95
Formation of Quantity With the Stamps	97
Addition With the Stamp Game	99
Subtraction With the Stamp Game	102
Multiplication With the Stamp Game	106
Division With the Stamp Game.	110
Addition With the Dot Board.	116
Introduction to the Bead Frame	119
Introduction to the Bead Frame With the Golden Beads	121
Introduction to the Bead Frame With Notation Paper	125
Formation of Quantity With the Bead Frame	128
Addition With the Bead Frame	130
Subtraction With the Bead Frame	133

Chapter 4 Memorization	135
Introduction to the Addition Strip Board	136
Addition Strip Board	138
Addition Chart 3	143
Addition Chart 4 (The Half Table)	145
Addition Chart 5 (Simplified Chart)	147
Addition Chart 6 (Blank Chart)	149
Oral Games for the Memorization of Addition	152
Addition Snake Game	154
Bead Bars for the Memorization of Addition	158
Bead Bars: Commutative Law	161
Bead Bars: Multiple Addends	163
Bead Bars: Addends Larger Than Ten	165
Bead Bars: Associative Law	167
Basic Formats for Addition	172
Addition Story Problems	174
Introduction to the Subtraction Strip Board	176
Subtraction Strip Board	178
Subtraction Chart 2	184
Subtraction Chart 3: Bingo Games	186
Oral Games For the Memorization of Subtraction	189
Basic Formats for Subtraction	191
Subtraction Story Problems	193
Subtraction Snake Game	195
Introduction to the Multiplication Bead Board	197
Multiplication Bead Board	199
Multiplication Bead Board: Prepared Equation Slips	201

Multiplication Bead Board: Combinations of Number	203
Multiplication Control Chart 2	205
Multiplication Chart 3	207
Multiplication Chart 4	209
Multiplication Chart 5 (“Bingo Chart” or “Blank Chart”)	211
Oral Games for the Memorization of Multiplication	214
Basic Formats for Multiplication	216
Multiplication Story Problems	218
Snake Game for Memorization of Multiplication	220
Cubing Chains for the Memorization of Multiplication	223
Bead Bars for the Memorization of Multiplication.	228
Construction of the Decanomial	236
Construction of the Decanomial – Continued	241
Powers of Numbers	245
Powers of Numbers – Continued	246
Further Explanation – Powers of Numbers	248
Introduction to the Unit Division Board	249
Unit Division Board	251
Division Bead Board	256
Division Chart 1	258
Division Chart 2	260
Oral Games for the Memorization of Division.	264
Basic Formats for Division.	266
Division Story Problems	268
Relationships of Multiplication and Division	270
Materials List	272
Bibliography	273
Additional Titles	274
