

Table of Contents

Introduction	1
Classic Montessori Math Materials	3
Chapter 1: The Decanomial.	7
Introduction to the Decanomial	8
Analysis of Lessons by Level.	10
Sequence of Activities for Memorization of Multiplication	11
The Sensorial Decanomial.	14
The Geometric Decanomial	45
The Algebraical Decanomial.	56
Chapter 2: Powers of Numbers	73
Introduction to The Powers of Numbers.	74
Analysis of Lessons by Level.	75
Classes of Numbers According to Montessori	76
Formation of Powers of Numbers.	79
Reinforcement Lessons.	82
Chapter 3: Multiples and Factors	90
Introduction to Multiples	91
Analysis of Lessons by Level	93
Concept of Multiples	94
Exercises in Multiples Using Command Cards	98
Multiples Table A and Table B	106
Table of Multiples	109
Prime Numbers and Composite Numbers	111
Sieve of Eratosthenes	119

Lowest Common Multiple (LCM)	123
Greatest Common Factor (GCF).	131
Using Set Theory to Find LCM and GCF	134
Factors and Prime Factors in Factor Trees	137
Prime Factors in Table of Factors.	139
Writing Prime Factors as Powers	140
Abstracting Rules for Finding LCM and GCF	141
Application of the Rules for Finding LCM and GCF.	143
Chapter 4: Divisibility	145
Introduction to Divisibility	147
Analysis of Lessons by Level.	148
Divisibility by Two	149
Divisibility by Four	153
Divisibility by Five	157
Divisibility by Twenty-Five.	160
Divisibility by Nine.	164
Proof and Application of Divisibility by Nine	186
Proof of Nine in Addition	189
Proof of Nine in Subtraction.	193
Proof of Nine in Division	197
Materials List	200
Additional Titles	202
